Greetings!

How about starting 2008 "Rocking the House"? After working so hard this past year why don't you treat yourself or your spouse to start off the year living the dream? As I read all the health club advertising that it's time to start working out and pampering yourself, I can't stop thinking that everyone should start the year rocking the house at the **February 15-18 President's Day weekend camp in Hollywood, CA.**

And **Alan White**, the legendary drummer of **YES**, who will be embarking on a world tour this summer when **YES** reunites for their 40th Anniversary. What a dream come true for any **YES** fan to be with Alan in his band (where's Jim Latham? inside joke),

Meeting and spending a week with **Glenn Hughes** has got to be a rock and roll fantasy. His band from New York has stayed together and even made plans to record together. They have put clips on you tube and his coaching has propelled singer **Stephanie Stokes** to re-ignite her musical career on a full time basis. Thank you **Glenn Hughes** for being part of Rock and Roll Fantasy Camp. Watching you perform is what real rock stars are made of.

If you had a chance to read **SLASH's** best seller over the holidays, you couldn't help notice that one of his favorite guitarists is Elliot **Easton of the Cars**. Slash goes on to say that he admires Elliot's playing ability and style and we at Rock and Roll Fantasy Camp admire his dedication to our campers over the years. Elliot, a true master musician will once again take a band at this February's camp.

Bruce Kulick, who is releasing a dvd at **NAMM** this week featuring his amazing guitar skills, will be leading a band at this upcoming camp. Bruce, who will be returning for his 7th camp, has assembled some of the most amazing bands at past camps and is a favorite to many returning campers. Congratulation also to Bruce who has been flying around the world and appearing at all the **KISS** conventions.

Simon Kirke of Bad Company and Free, is probably one of the most versatile musicians in the music business today. Known as a drummer, Simon also plays guitar, keyboards and produces and is returning for his 8th camp. Simon just appeared at the biggest rock show of 2007 where he opened the **Led Zeppelin** show with Alan White, Chris Squire and Keith Emerson, and is an incredible teacher. .

LIVE YOUR DREAM
